

SUMMER CLAMBAKE

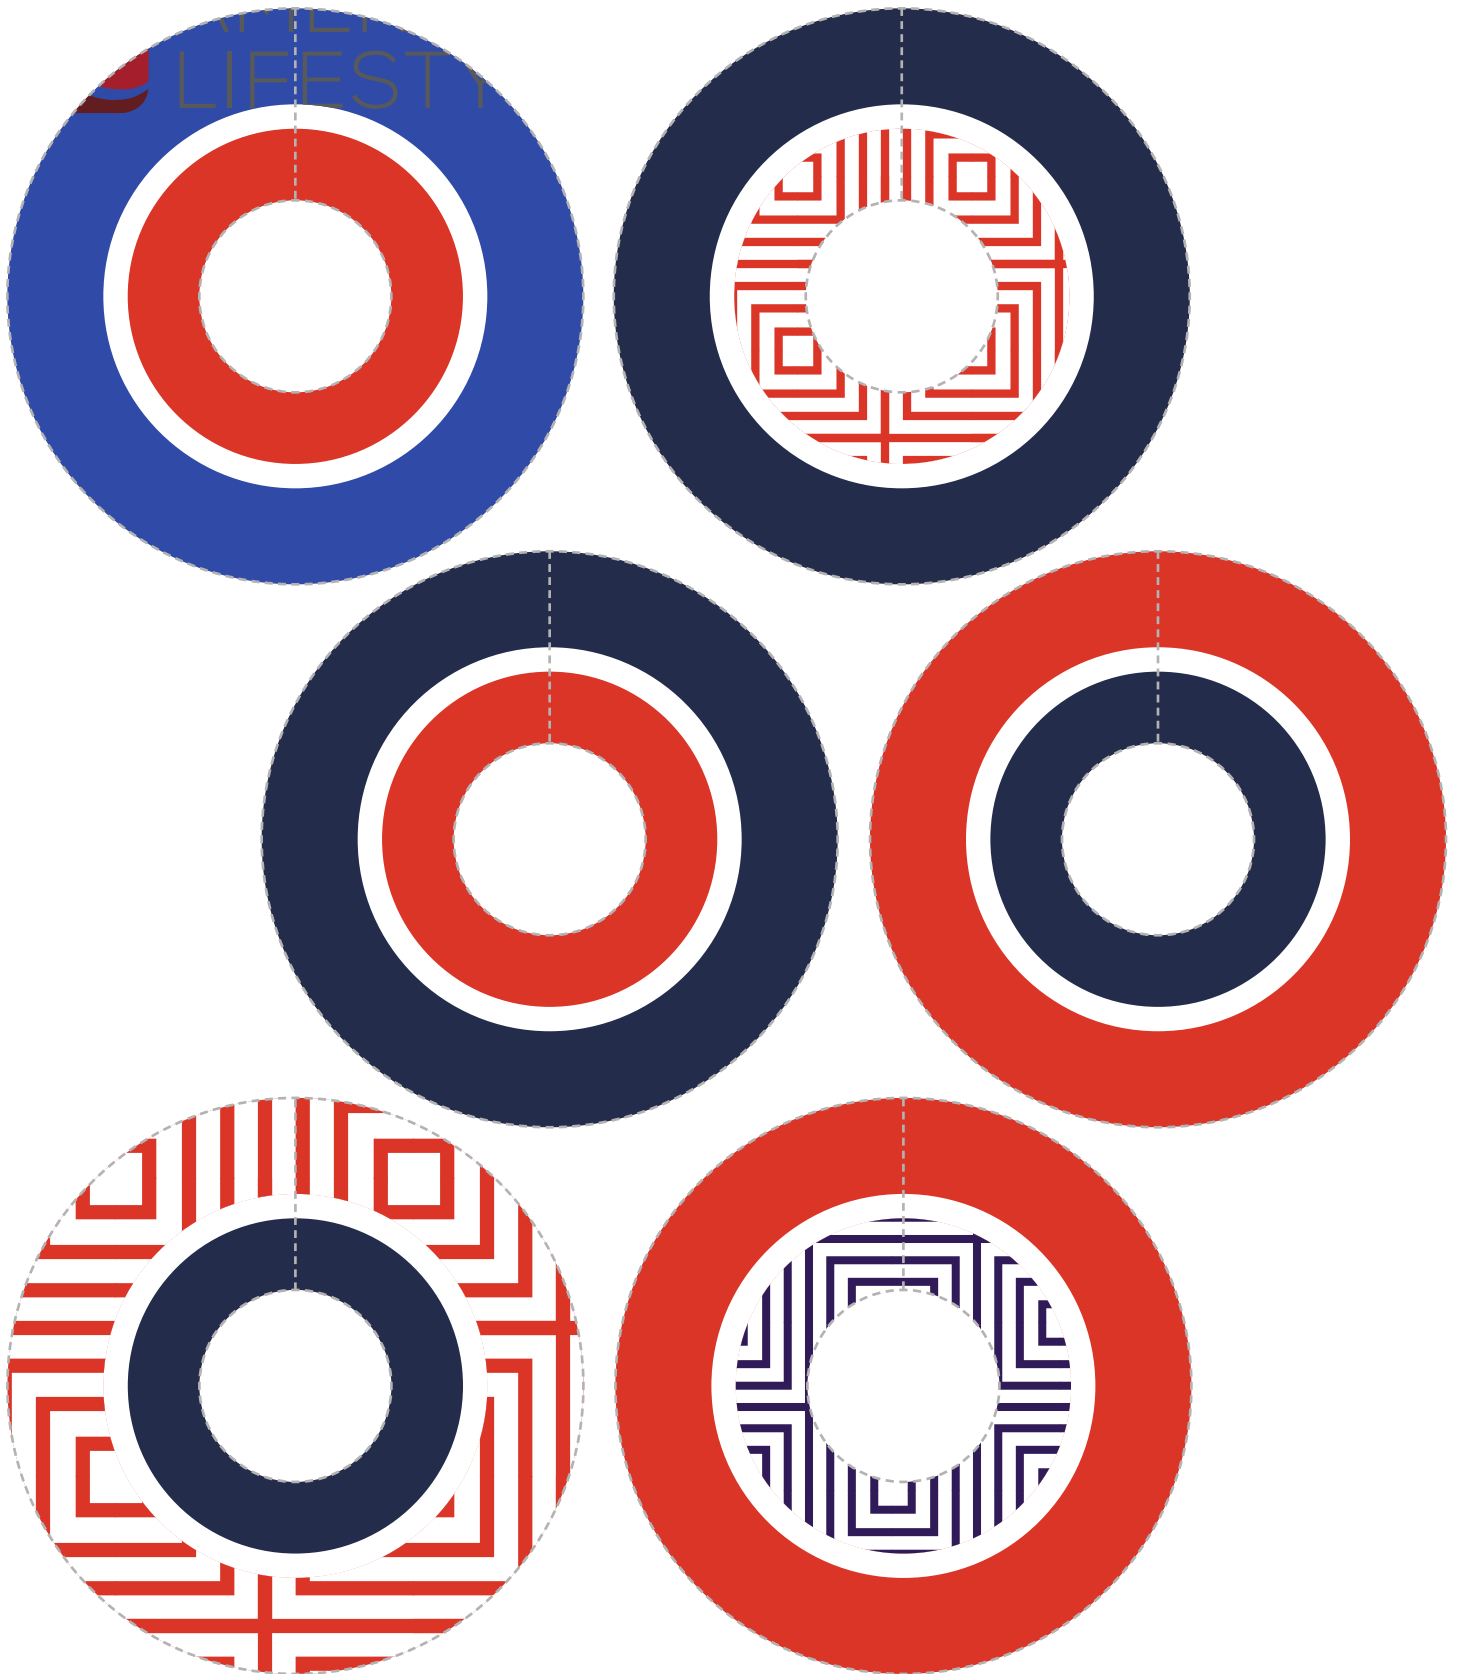

OVERVIEW:

Plan a traditional clambake on your favorite beach this summer, or invite friends to enjoy an at-home variation. Since a clambake requires little preparation, use the extra prep time to get creative with decor. Use these tips to create a classic clambake feel.

From banners and signs to wine tags and clever food labels set up to look like sails, we have provided nautical touches and sea side displays to tie a perfect summer clambake together—all you have to do is print, cut, and enjoy!

WHAT'S INCLUDED:

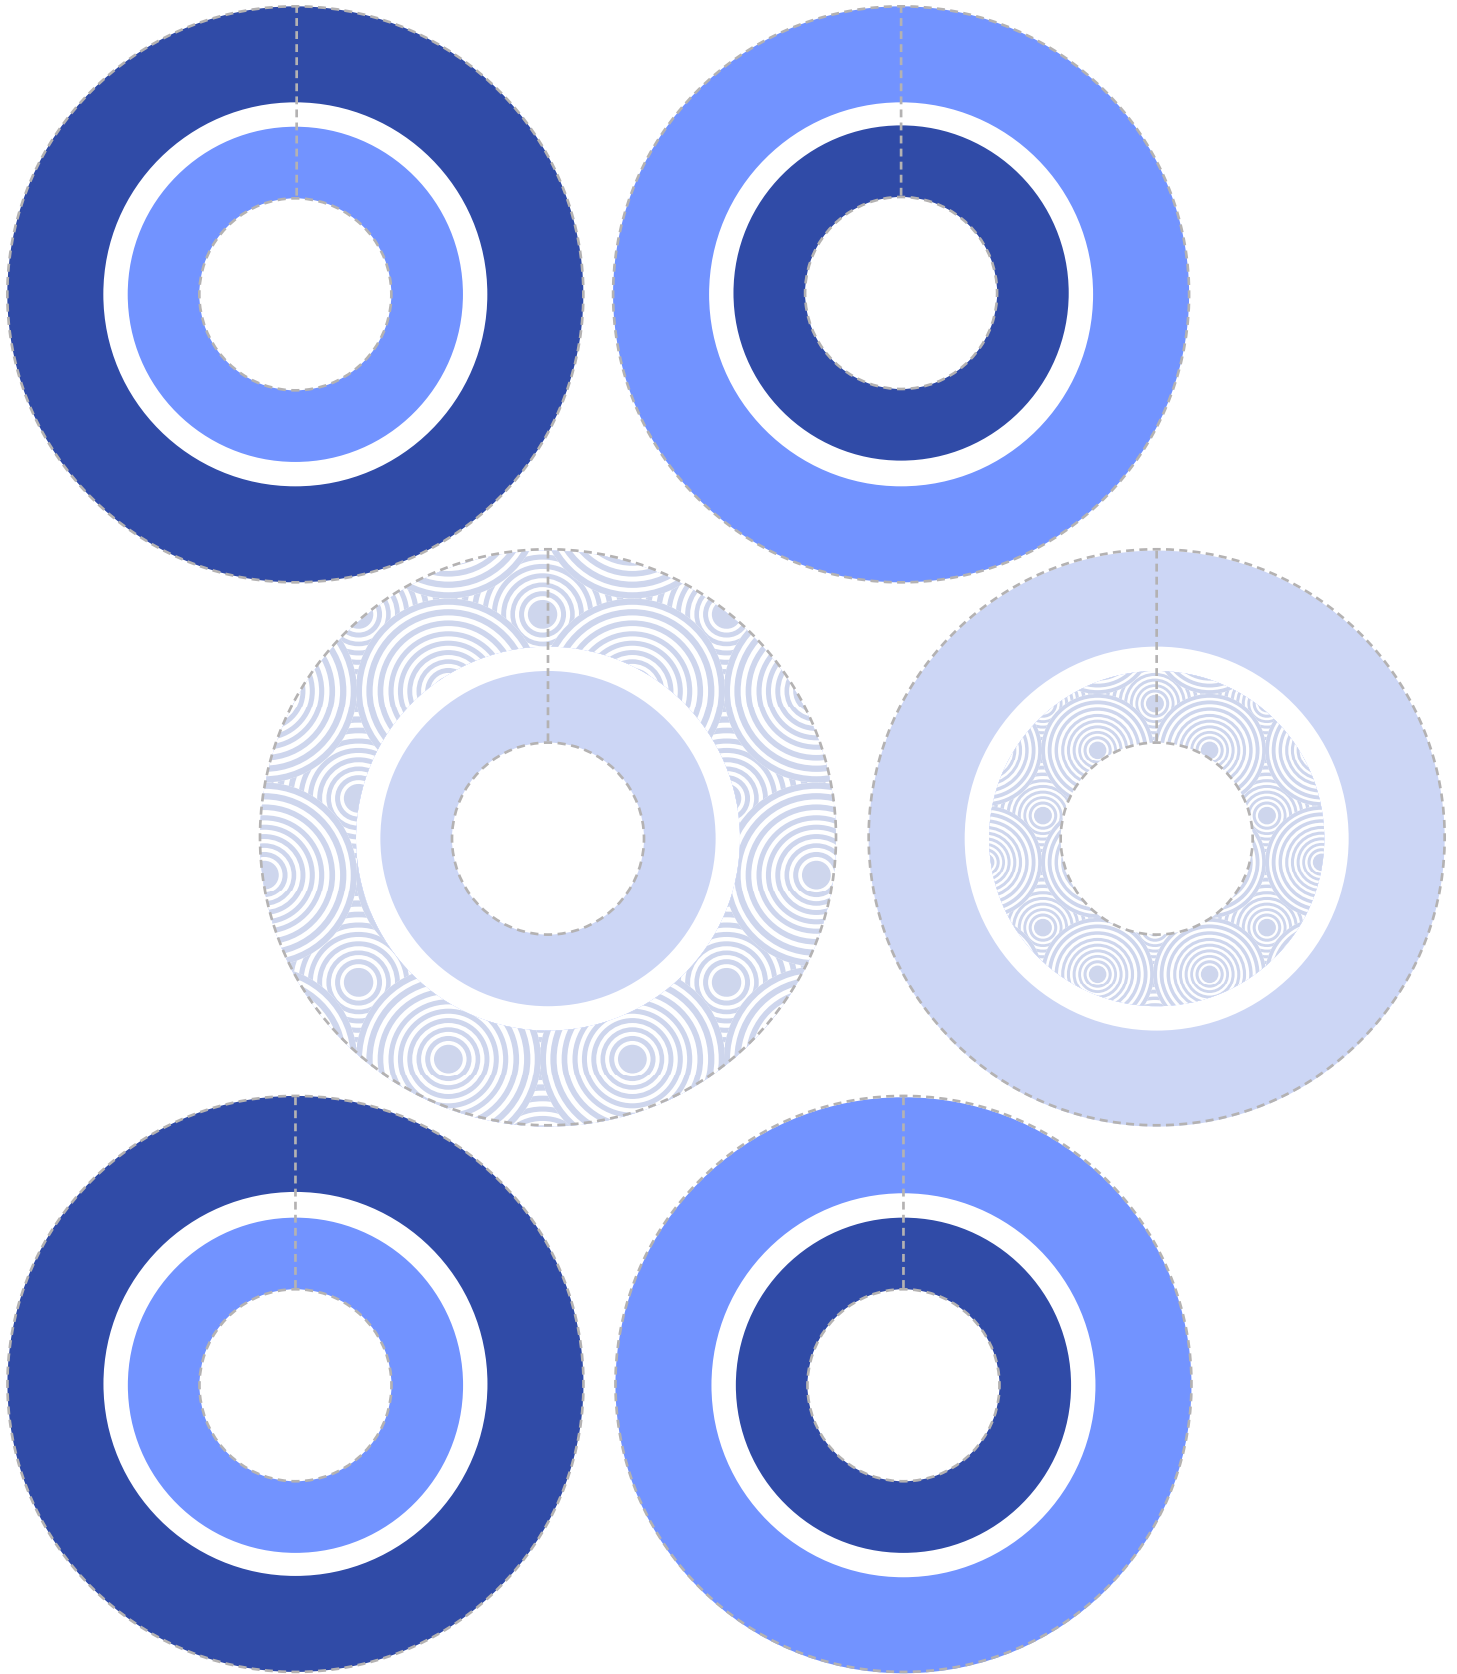

- Nautical Wine Tags**
 Print out the wine tags, and cut out the circles. Next, cut along the dotted slits and inner circles. Slide the wine tags around the stems of the glasses.
- Cheeseboard Sail Labels**
 Print and cut out the sails. To assemble each sail, poke a skewer through the front at the top dot and then through the back at the bottom dot.
- Food Labels**
 Print and cut out the sails. To assemble each sail, poke a skewer through the front at the top dot and then through the back at the bottom dot.
- Banner**
 Print and cut out the banner pieces. Weave fishing line through each piece with a sewing needle. String pearls, shells, and beads for extra detail.
